

2. cut ONLY the white backing paper!!!

3. remove one side of the backing paper

4. Apply the half of the MDC on the inside of the canopy, the tape outside helps to find the center/middle of the canopy

5. Remove the other side of the backing paper and apply the second side of the MDC, remove the transfer paper.

maybe cut too, it helps

cut ONLY the white backing paper!!!

remove one side of the backing paper
